Welcome to Green World Group

Green World Group is an internationally recognized educational institution offering industry oriented occupational safety and health courses to students and working professionals. GWG in Saudi Arabia provides participants with necessary training to improve their knowledge and skills to develop highly secured working environment which are healthy and risk-free for workers.

Meticulously designed by safety and health experts to meet international and national compliances, some of the outstanding courses offered by Green World Group are NEBOSH, IOSH, Lead Audit course, RoSPA, NVQ, ILM and National Diploma. Apart from this, GWG has indigenously developed and government of India recognized safety diploma courses which are made to meet the safety and health needs of workers belonging to different work environments.

Having state-of-the-art classrooms with world-class infrastructure, participants of various courses are provided with highly talented and experienced tutors along with well researched supportive study material. Apart from classroom education, the Group also offers e-learning and distance education modes to facilitate people who couldn’t devote time for classroom courses.

All the courses offered by Green World Group’s Saudi Arabia locations like Jubail, Dammam and Riyadh are employment-oriented and adhere to international safety standards necessary for the students to create their own safety procedures for achieving safe and secure work environments.

About Us

Ever since the establishment of “Green World Group” in 2006, the institution has been striving to provide customized safety services to working professionals, students and company-sponsored workers to increase the awareness level on occupational health and safety in different working environments. Following its growth path strictly on the basis of self-imposed ethics such as integrity, honesty and collaboration, GWG has been able to achieve one milestone after another since its humble beginning.

We offer well researched, industry specific and highly comprehensive safety and health courses which are bundled to enhance every participant’s knowledge and equip them with practical skills needed to thwart any form of occupational health hazard and risk. Simply put, all our courses are well designed by independent expert panels to meet the specific needs of our clients.

As all the courses are made to meet the specific industry-oriented health and safety standards and also comply with international and national safety standards, students passing out from GWG are well recognized by industries around the world. Some of the most outstanding courses offered by us are developed and approved by internationally-acclaimed UK boards such as NEBOSH and IOSH.

These courses, being offered at Saudi Arabia locations such as Riyadh, Jubail and Dammam, are the most prestigious ones in the field of industrial safety and health. We have been receiving phenomenal support from industries across the globe and that is why we could spread our wings far and wide within a short span and have training centers in Middle East, Africa and Indian sub-continent.

We, at “Green World Group”, update ourselves the safety concerns faced by industrial houses across the globe on a regular basis through frequent market surveys and research. Our occupational health and safety courses are intended to reduce accidents or fatalities thereby saving lives and avoiding losses faced by business houses.

As we make your workforce in-tune with the latest safety and health standards required to create congenial and secured work environment, you can be rest assured about the safety needs of your company and concentrate more on your business growth.
